owners that allowed a quick fix to a problem. One of the most common problems is a misadjustment of the micro switch on the nose gear (again the shop manual is very ...

### **Sierra C24R — Above All Aviation**

The Beech Sierra s entry into the normally aspirated 200-HP piston single market was like its competitors offerings a growth airplane derived from an earlier model with less horsepower and less complexity. That was the Model 23 Musketeer, of course. Like Piper s Arrow and Cessna s Cardinal RG, the Sierra sports four seats, a constant-speed prop and retractable landing gear, making it a logical ...

## **Illustrated Parts Catalogs - Textron Aviation**

The first airplane I bought and did not have to share with others was a 1975 B24R Beech Sierra. The Sierra was purchased in early 2001 and traded in on a twin in 2007. It had about 2500 TT and was flown about 550 more hours while in my care. The aircraft had a useful load of 932 pounds after adding a lightweight starter.
