The Eastern Arc Mountains of East Africa are one of the 17 most threatened tropical ecosystems or hotspots worldwide. This is the first book to examine in detail current threats as well as approaches for conserving biological diversity in this global biodiversity hotspot.

BIODIVERSITY: BIODIVERSITY IN AFRICA

Biodiversity is the pillar that allows ecosystems to function and humans to thrive. Without biodiversity in an ecosystem we would not have the many plants and animals we find in our world today, including us. Biodiversity is the "biological diversity in an environment as indicated by numbers of different species of plants and animals."
