MAN-HOUR The following are man hour reference for pipe laying, valve handling, flange installation and welding or threading of pipe. Man hours are per meter, per piece or per connection. For reference on the material cost of the pipes: G.I. Pipes / B.I. Pipes / PPR Pipe / PVC Pipe

2016 National Construction Estimator

Given manhour tables are result of analyses, comparisons, simulations and new measures of collected technical bibliography, standards, catalogues, man hours and rates from the European and USA countries, verified in practice during the plant erection. With proper and conscientious application of these data for making estimates, the estimator will calculate hourly time requirements i.e. the man hours required for the piping and plant erection.

[PDF] Estimators Electrical Man Hour Manual Full Download-BOOK

The most complex work in developing these man hours was the work on the man hours f or piping abov e ground. A basis I used was a system for estimating the value of erection works of a German Company LINDE, which I completed and modified. Gener ally , for elabor ation of the man hours f or er ection/installation of process equipment,
