typically have three components: the prefix (three or four alphanumeric characters) then a dash, followed by the basic number, another dash, and then the suffix or revision version. In some situations, there is even a pre-prefix with a single or double digit to help provide further clarification of the part's history.

FORDification.com

Ford Carburetor

Numerical Index. Ford carburetor numbers came in several series. Starting in the late 1950's they usually consist of an alphanumeric code. The first letter of the number represents the decade and the next number is the year. So, C9AF means 1969, D9AF means 1979 and so on.
