Imperialism: A policy in which a strong nation seeks to dominate other countries poitically, socially, and economically. To extend power into foreign countries.

Key Concepts in Political Geography | SAGE Publications Ltd

Political geography is concerned with the study of both the spatially uneven outcomes of political processes and the ways in which political processes are themselves affected by spatial structures. Conventionally, for the purposes of analysis, political geography adopts a three-scale structure with the study of the state at the centre, the study of international relations above it, and the study of localities below it. The primary concerns of the subdiscipline can be summarized as the inter-rela

Chapter 8 Political Geography Flashcards | Quizlet

Regions are the basic way of looking at geography, looking at one trait that ties an area together, one common unifying factor. The factor can come from physical traits, such as location or land form or general climate; or human/cultural traits, such as language, political ties, ethnicity, or urban/rural.

Key Concepts in Political Geography (Key Concepts in Human ...

Political geography personified has a nature, just as any human being has a peculiar nature or the psychological tendency. As says H.J. Mackinder, the geography is a science, the arts and the philosophy by nature. So, it follows that the political geography is a science, arts and philosophy, too.

Fundamental Concepts of Political Geography: An ...

Territory and territoriality are the defining concepts of political geography in that they bring together the ideas of power and space: territories as spaces that are defended, contested, claimed against the claims of others; in short, through territoriality. Territory and territoriality mutually presuppose one another.
