Five Trends Influencing the Future of Our Cities

Humanity's future is the future of cities. Explore the crowded favelas, greened-up blocks and futuristic districts that could shape the future of cities — and take a profane, hilarious side trip to the suburbs.

Insights | Future Cities

Today's cities are larger and more diverse than ever. More than half of the world's population now lives in urban centers, and this proportion is expected to increase to nearly 70 percent by 2050. 3 While urbanization has helped improve living conditions for millions of people around the world, there are often chronic economic and social disparities among city dwellers.
