BMW M57 engine - AustralianCar.Reviews

BMW M47, M57 and M67 Diesel Engines. M57TU in the super quick E46 330d. Chronology. The M51 and M41 diesels had broken new ground for BMW and set new standards, but yet again it was time to raise the bar. Against this background the M47 four cylinder and M57 six cylinder diesels were launched from 1998, although introduction dates to the E34 three, E38 seven and E39 five series differed slightly.

6 speed e39 530d - Bimmerforums - The Ultimate BMW Forum ...

I've boosted from the oldschool engine, original 184hp one, to 345hp. But on that, the head is super restrictive. Adding fuel or boost didnt matter and the engine turned out to be worn out too. A guy i know just did a full engine work on his 535D 272hp version and installed 286hp head and valves etc. Got the bigger turbo hybrid too.

BMW M51 - Wikipedia

Automotive petrol engines. As per many other manufacturers, BMW has produced automotive petrol/gasoline engines in the following layouts: inline-four (straight four) and V8. BMW is also well known for its history of straight-six (inline-six) engines (instead of the V6 layout, which has replaced the straight-six layout for most other manufacturers).
