Questions & Answers - SwissRidge Berenedoodles

What if there are missing pedigree data? A dog with one or two missing parents is disconnected from its ancestors, so "on paper" it can't inherit two copies of the same allele and its coefficient of inbreeding will be incorrectly calculated to be zero. Of course, that will underestimate the inbreeding estimates for all of that animal's descendants as well.

The Truth About Dachshunds and Back Problems

Knee-Jerk Reactions and Consequences. As an example, a former client was married to a very physically-abusive narcissist. The narcissist claimed that he didn't want to be violent because he didn't want to be that kind of person (notice it had nothing to do with the pain he was causing his wife, only shame for himself), but that he couldn't help himself because it was just a knee-jerk reaction ...

An important use of technology is its capacity to create new opportunities for curriculum and instruction by bringing real-world problems into the classroom for students to explore and solve; see Box 9.1. Technology can help to create an active environment in which students not only solve problems, but also find their own problems.

Owner Education - Thoroughbred Owners and Breeders Association

1. The Good Citizen: Historical Conceptions “As far back as evidence can be found—and virtually without exception—young adults seem to have been less attached to civic life than their parents and grandparents.” [] That is not evidence of decline--although it is often read as such--but rather indicates that becoming a citizen is a developmental process.
