You will need to use a reference source available to you in your workplace to recall a drug's classification, contraindications, method of action, administration route, medication interactions, and ...

Pharmacology Study Guide Drug Classification

Rather than learning pharmacology on a drug-by-drug basis, learn the subject on a class-by-class basis. Learning by class means you only need to learn one mechanism, one set of indications, one set of side effects and one set of drug interactions. By losing sight of the bigger picture, you serve to:

Nursing Pharmacology & Medication Study Guide | NRSNG

Pharmacology is the study of how a drug works on the body, its side effects on the body, and the way the body uses the drug. Most nursing students find pharmacology a tough course because you are required to know the name, side effects, nursing interventions, and the way the body uses the drug in such a short amount of time.
