HOLLAND FW35 Rebuild Procedure and Lock Adjustment Procedure

Review the rebuild procedures, and repair as required. Bent release arm. Inspect release arm for straightness, replace as required Hard to couple Coupling too fast Pick up the trailer with the fifth wheel. STOP. Then, continue backing until coupled. Trailer is too high. Lower the trailer. The fifth wheel MUST pick up the trailer. Lock is already closed.

Rebuild Holland 5th wheel or replace? | TruckersReport.com ...

The passenger side landing jack on our Keystone Cougar fifth wheel suffered a major failure last week. I was in the process of jacking the trailer off the truck when I heard and felt a loud clunk. In fact, my wife who was inside setting things up immediately looked out the window and ask "What the heck was that?".

TROUBLESHOOTING HINTS - Jost International

There are a lot of rebuild believers here for 5th wheels. I am not one of them. I think replacement is the way to go. The plate and throat will also be worn so you will always have some play after a rebuild. Unless the plate is mint I would replace it. Everything is now brand new, no questions about liability.
