Rural Europe Identity And Change

This book examines the interaction, at national and international level, of the economic, political and social change processes within Europe that are bringing about fundamental transformations in rural areas. Although such changes are experienced at a local level, they are heavily imbued with a national tone, given that European nations possess distinctive visions of their rural areas.

Publication Landscapes in transition — An account of 25 years of land cover change in Europe Landscape is one of the most precious assets contributing to Europe's cultural identity. As landscape is determined to a large extent by land use, the study of land use changes, especially through changes in the land cover, provides clues to the drivers of the transitions that landscape is currently ...

Rural Voices : Language, Identity, and Social Change ...

The rural identity narrative has had surprising staying power in the American psyche, even as the U.S. becomes an increasingly urban society (Danbom, 1996). Farm employment has decreased from 41% of the workforce in 1900 to 22% in 1930 to less than 2% today, and agriculture's share of GDP has dropped from 8% in 1930 to less than 1% in recent years (Government Printing Office, 2006).
